- “artistic realism & biological science are twin brothers in the founding of the civic order of nature...they are tools for the construction, discovery of form”
- “To make an exact image is to insure against disappearance, to cannibalize life until it is safely and permanently a spectacular image, a ghost. The image arrested decay. That is why nature photography is so beautiful and religious and such a powerful hint of an apocalypse”

- Genetic Hygiene
- Fantastic Logic
- organic perfection
- the enchantment of a perfect garden

YOU DESIRE TO  
LIVE "ACCORDING  
TO NATURE"?

WHAT FRAUD  
OF WORDS!!

*you desire live  
"according to Nature"?  
What a fraud of words!  
Imagine yourselves a being  
like nature, boundlessly  
eternally, without purpose or  
motivation, without faith  
or justice, at full full night forever  
and uncertain.*

The falseness of an opinion is not for us any objection to it. It is here, perhaps, that our new language sounds most strangely. The question is, how far an opinion is life-furthering, life-preserving, species-preserving, perhaps species-creating, and we are fundamentally inclined to maintain that the falsest opinions (to which the synthetic judgments a priori belong), are the most indispensable to that without recognition of logical fictions, without a comparison of reality with the purely IMAGINED world of the absolute and immutable, without a constant counterfeiting of the world by means of numbers, man could not live—that the renunciation of false opinions would be a renunciation of life, a negation of life. TO RECOGNISE UNTRUTH AS A CONDITION OF LIFE; that is certainly to impugn the traditional ideas of value in a dangerous manner, and a philosophy which ventures to do so, has thereby alone placed itself beyond good and evil.
